

Pronoun Match Game

Cut out all the cards and shuffle. Turn all the cards face down on a table. The student selects two cards. If it is a noun card and a pronoun card that agree, the student can remove the cards. If the two cards are not a noun card and a pronoun card that agree, the cards are turned face down again. Once all the cards are removed, the game is over. The game may be played alone as a timed game or in student pairs. If two students play, the student with the most matches wins.
