

Latin and Greek Suffixes: -Oid and -Itis

Many suffixes we use in English originally come from Greek or Latin word endings. The suffix *-oid* is from Greek meaning “like” or “resemble.” The suffix *-itis* is from Greek meaning “inflammation.” Suffixes often change the meaning of the root word. For example, the root *fact* means “something true or real.” Combine *fact* with *-oid*, and it becomes the word *factoid*. Based on its original meaning, *factoid* means “resembling truth” or a minor truth or something believed to be true but may not be.

Use the list in the bank to make five different English words out of *-oid* and *-itis*. You may add a prefix or change the spelling a little if needed. Write a sentence for each word you make and circle the word you made with the suffix. Be sure to use words for both *-oid* and *-itis*.

Word Bank

andr
appendic
arthr
aster
dermat
sinus
spher
ster
tabl
tonsill
